DETAILED ACTION

1. Restriction to one of the following inventions is required under 35 U.S.C. § 121:

Group I. Claims 1-35, 75-94 and 115-116 drawn to a travel planning and system for managing travel arrangements in which completed travel booking is sent to a travel agency for post processing, classified in Class 705, subclass 5.

Group II. Claims 99-114, drawn to a travel planning and reporting method for automatically booking a travel reservation associated with stored frequent trip records, classified in Class 705, subclass 5.

The inventions as grouped above are distinct inventions. The two inventions are useable apart from each other and do not require one for the other to operate or to be useable. For example, the limitations of Group I requires transmitting booking data to a travel agency, and does not require an automatic booking based on frequent trip records as required in Group II.

Because the inventions are distinct for the reasons given above and the search required for one group is not required for the other Groups, restriction for examination purposes as indicated is proper.
